Instructions for digital exam in SEB

Preparation before the exam starts

Have your anonymous code available. If you do not have your anonymous code with you, the code will be given to you by the exam hosts. You need the anonymous code to download digital material but you can start and use R without a code.

Start the exam

NOTE! Inspera is not used on this exam, you should not log in to Inspera but go directly to the steps below.

1. The computer is started, the browser Microsoft Edge is displayed.

   Go to **http://tenta.stat.su.se/tenta**

   Note! Not https://
2. Click on "Start SEB..." for your course.
3. A list of possible programs that SEB wants to terminate appears. Click on "Yes".

Downloading files during the exam

When SEB (Safe Exam Browser) has been launched, the exam start page is displayed. Here you can download any necessary files (help files, data files and the exam) and submit your exam.

Using different programs during the exam

The list at the bottom of the screen shows all the allowed programs you can use during your exam.

Submit and finish the exam

1. Submission of exam files can only be done from the **Downloads** folder, so save or move all files you want to submit to the **Downloads** folder.
2. Go to the exam start page and submit according to the instructions on the page.
3. If you need to submit more than one file, it must be done one file at a time.
   1) Enter the requested information and press "submit file".
   2) **Important! Make sure you get a green confirmation text.**
   3) If you are submitting more than one file: use the "back button" on the page, select the next file and submit again.
4. After submission, click on the button "Instructions to finish the exam". Follow the instructions on the screen.

Good to know

- If you want to open pdf-files, first start Acrobat Reader and then open the pdf-files from there.
- Any Zip-files are managed using the file manager.
